FORESTRY AND ENVIRONMENTAL STUDIES

Program adviser: John Wargo, 124 KRN, 432-5123, john.wargo@yale.edu

The School of Forestry & Environmental Studies is primarily a graduate and professional program designed to train leaders to solve worldwide environmental problems and to provide new understanding of local and global environments through interdisciplinary research in the natural and social sciences. The School offers numerous courses to undergraduates in Environmental Studies, and undergraduates from any major can take courses in the School. Those undergraduates with significant interest should contact the School’s undergraduate program adviser to discuss a joint degree program that allows Yale College students to earn both a bachelor’s degree from Yale College and an M.E.M. degree from the School of Forestry & Environmental Studies in five years. For more information on the joint program, see the School’s Web site (http://environment.yale.edu/academics/degrees/five-year). Most graduate-level courses are open to qualified undergraduates. Listings and detailed descriptions of these courses are available in the bulletin of the School of Forestry & Environmental Studies (http://www.yale.edu/printer/bulletin/htmlfiles/forestry), and most also appear in the online bulletin of the Graduate School of Arts and Sciences (http://www.yale.edu/printer/bulletin/htmlfiles/grad).

Information about the programs of the School of Forestry & Environmental Studies may be found on the School’s Web site (http://environment.yale.edu). Most lectures and symposia are open to undergraduates, and a calendar of events is also posted on the School’s Web site. (http://environment.yale.edu)
