MINISTRY RESOURCE CENTER

The Ministry Resource Center, a part of the Divinity Library, endeavors to expand visions and meet faith needs through the life of congregations and agencies in communities, focusing on the practice of ministry and providing resources to faculty, graduates, congregations, and students, including those in internships. The center offers consultation related to ministries of social service agencies and congregations, the use of resources, and program planning. It maintains a media library of DVDs, CDs, and print resources on the practice of ministry ranging from social issues to congregational care to curriculum resources.
