DEADLINES AND UPDATES

The schedule of deadlines for the YCPS is usually sent out in early November from the University Registrar’s Office. The deadline for copy changes for the program overview and first-year tab falls in early February. After the initial copy submission, smaller changes can be made to course and program information up until mid-March. Some changes are difficult to make late in the editing cycle, and all updates are subject to editorial approval. Program descriptions, once published, may not be changed until the following academic year. The faculty roster may be updated throughout the year.
