MUSIC

Director of undergraduate studies: Ian Quinn, 205 STOECK, 432-2986, dus.music@yale.edu; yalemusic.yale.edu

The Department of Music offers introductory and advanced instruction in the history of music, the theory of music, composition, music technology, and performance. The Music major provides a general music program in the humanities, as well as preparation for graduate studies or for careers in music.

COURSES FOR NONMAJORS AND MAJORS

Introductory courses, numbered from 100 to 199, are open to all undergraduates and require no previous experience in music.

Qualified students, whether majoring in music or not, may offer up to four terms of instruction in performance for academic credit toward the 36-course-credit requirement for the bachelor’s degree. Of these four course credits, only two may be applied to the major in Music. Auditions for lessons are held at the beginning of the fall term; students sign up at the School of Music auditions site. Students who audition for lessons are placed into one of three groups: 1) noncredit instruction for a fee; 2) lessons for academic credit at the 300 level, graded Pass/Fail; or 3) lessons for academic credit at the 400 level, graded A–F. Only students with exceptional proficiency are placed into 400-level lessons.

Students accepted for noncredit instruction are charged $550 for ten hours of lessons per term or $350 for six hours of lessons per term. The fees are added to the Student Financial Services bill and are not refundable after the first two weeks of lessons each term. Declared music majors in their junior or senior year may receive noncredit lessons at a discounted rate: six hours of lessons per term at no charge or ten hours of lessons per term for $275.

COURSE NUMBERING

Introductory courses are numbered from 100 to 199. Intermediate courses, numbered between 200 and 399, may require prerequisites or a familiarity with music notation. Advanced courses, numbered between 400 and 494, are intended for students who have completed intermediate courses in the relevant field. They are intended primarily for students majoring in music, but they may be elected by others who meet the stated prerequisites.

COREQUISITES AND LESSONS

Students taking MUSI 345 or 445 are required to be concurrently enrolled in an introductory or intermediate music theory or musicianship course (MUSI 100, 110, 200, 210, 211, 218, or 219) for two terms, or they must complete one term of the theory/musicianship requirement before enrolling in MUSI 345 or 445 for the first time, and another before enrolling in MUSI 345 or 445 again. MUSI 345 is taken Pass/Fail; MUSI 445 and the corequisites are taken for a letter grade.

PLACEMENT PROCEDURES

Students must take the Music Department’s music theory placement test to determine their placement in the theory/musicianship sequences. Advanced Placement test scores do not satisfy the music theory prerequisites for performance instruction. Although the faculty of the School of Music attempts to accommodate those who qualify for credit instruction, it cannot guarantee that they will be enrolled with the teacher of their choice.

REQUIREMENTS OF THE MAJOR

The major for the Class of 2020 and previous classes

With DUS approval, the following changes to the requirements of the major may be fulfilled by students who declared their major under previous requirements.

The major for the Class of 2021 and subsequent classes

Thirteen courses are required, two intermediate courses and one advanced course in each of four groups, plus the senior requirement. Group I (MUSI 200–219; 300-319; 400–419) includes music-theory and technology courses focused on the materials and structures of musical works and repertoires. Group II (MUSI 220–249; 320–349; 420–449) includes composition, technology, and performance courses with a practical focus on techniques of artistic production. Group III (MUSI 250–274; 350–374; 450–474) includes lectures and seminars taking a research- and writing-based approach to the Western art-music tradition. Group IV (MUSI 275–299; 375–399; 475–494) includes lectures and seminars taking a research- and writing-based approach to popular or vernacular music or to music of non-Western traditions.

Credit/D/Fail

Courses taken Credit/D/Fail may not be counted toward the requirements of the major.

SENIOR REQUIREMENT

Each student majoring in Music must satisfy the senior requirement by completing a senior essay, composition, or recital in a course from the range MUSI 496–499.

The standard major

Students must submit a completed Senior Project Form to the director of undergraduate studies by the end of the course selection period in the term during which the project will be completed. The Senior Project Form, available in the departmental office, includes a brief description of the project and a timeline for completion. The form must be signed by the project’s primary and secondary advisers, at least one of whom is a member of the faculty of the Department of Music.
The intensive major The intensive major is for students of high standing who are qualified to do sustained independent and original work in music research or in composition. Students wishing to elect the intensive major must register for the senior project in the fall term of their senior year (MUSI 497–499). A plan for progress must be included in the project proposal at the beginning of the fall term, specifying a deliverable end-of-term product with approximately the same scope as a one-term senior project. Upon satisfactory completion of this work, a student may be admitted to the intensive major, which consists of a second term of registration for the senior project (MUSI 497–499). The additional course for the intensive major is supplementary to the thirteen term courses that constitute the standard major.

ADVISING

Simultaneous B.A./M.A. program Undergraduates with exceptionally strong preparation in music history or music theory may complete a course of study leading to the simultaneous award of the B.A. and M.A. degrees after eight terms of enrollment. Students may not enroll in Yale College for more than eight terms to qualify for the simultaneous award of both degrees. Declared majors in Music may apply for the program until the last day of classes in their fifth term of enrollment, if they have completed at least two graduate courses in the Department of Music, at least one numbered 700 or higher, with grades of B+ or above, and if their overall grade average is A– or above. Applicants must demonstrate progress toward proficiency in a foreign language examined by the Department of Music.

Students in the simultaneous program fulfill the requirements for the intensive major in Music. They also take eight graduate courses in the Department of Music, with average grades of B+ or higher and grades of A or A– in at least two of the courses. They satisfy the Yale College requirements for the program (see "Simultaneous Award of the Bachelor’s and Master’s Degrees" in section K, Special Programs, in the Academic Regulations), and they pass a departmental examination in a modern foreign language.

B.A./M.M. program The Bachelor of Arts/Master of Music program is designed for students with outstanding abilities in performance who are also interested in a liberal arts education. Admission to the B.A./M.M. program is through acceptance into Yale College as well as a separate, successful audition through the School of Music, either before matriculation into Yale College, or after the third year of the B.A. program.

B.A./M.M. students usually complete requirements for the Bachelor of Arts in their first four years and for the Master of Music after one year of the Master of Music program in the School of Music (fifth year). Before their fourth year students should have completed, at a minimum, four terms of performance (MUSI 345 or MUSI 445) and four courses at the intermediate or advanced level in Groups II, III, or IV.

By the end of the fifth year all students participating in the B.A./M.M. program must have met the School of Music’s standard in musicianship and music history either through testing or course work. They must also have completed language and keyboard proficiency requirements.

Introductory Courses

MUSI 100a, Melody, Rhythm, and Notation in Global Context  Ian Quinn
This course develops skills in singing, hearing, and writing music through repertory-based case studies of improvised and written melody in global ritual song traditions. Modern Western music notation is introduced through a study of its historical development as a tool for vocal literacy. Topics include mode, scale, rhythm, meter, and form. Lectures introduce theoretical concepts in their epistemological, cultural, and historical contexts, and small-group recitation and improvisation sessions turn these concepts into musical intuitions. Principles of modal and tonal organization are introduced by modeling repertories including Vedic chant, Torah cantillation, Byzantine psalm intonation, and Carolingian chant. Interdependencies between melodic design, musical meter, and poetic prosody are explored through immersion in a repertory of folk hymnody from the Second Great Awakening, a major site of antebellum musical contact between Americans of European and African descent. Willingness to sing is essential for this course, though talent is not a prerequisite. No experience with musical notation is required.

MUSI 110a or b, Introduction to the Elements of Music  Staff
The fundamentals of musical language (notation, rhythm, scales, keys, melodies, and chords), including writing, analysis, singing, and dictation. Intended for students who have no music reading ability.

This course is open to all undergraduates and requires no previous experience in music, nor does it require or presuppose affiliation with a particular faith. All that is required is an open mind and an open ear.

MUSI 175b, Listening to Music  Marissa Moore

We read about famous historical cabarets; watch films based on cabaret; read plays, short stories and novels; listen to cabaret songs; learn about the lives of cabaret performers; and analyze the works of contemporary American cabaret artists. More broadly, we examine the values and aesthetics underpinning cabaret’s central themes as a form, and explore the music-theatrical predecessors to the manifestation of these concepts in contemporary cabaret. These thematic explorations will lead us around the world and back and forth in time. In order to put our discussions of cabaret into a wider theatrical context, we will also explore a number of other performance genres related to cabaret, including commedia dell’arte, vaudeville, burlesque, circus, and minstrelsy. Historical and theoretical discussions will be combined with creative, performance-based assignments. HU

* MUSI 453b / RUS 308b, Russian Opera  Patrick McCreless

This is an introductory course to Russian opera, from its first masterpiece in 1836 (Glinka’s Life for the Tsar) to the first widely popular Soviet opera (Shostakovich’s Lady Macbeth of the Mtsensk District, 1930-32), which Stalin’s regime condemned in 1936, exactly 100 years later. Along the way we also study Mussorgsky’s Boris Godunov (1869), Chaikovsky’s Eugene Onegin (1877-78) and The Queen of Spades (1889), Prokofiev’s The Gambler (1915-17), and Shostakovich’s The Nose (1928). We analyze how each opera unfolds dramatically and musically—attending, on the one hand, to the libretto and its source in Russian literature; and on the other, to the expressive import and formal structure of the music. Throughout the course we endeavor to understand the Russian culture that gave birth to these fascinating musico-dramatic works.  HU RP

* MUSI 477a / AMST 485a / HUMS 354a, The Question of Music: Music, Critique, and Humanistic Theory  Michael Denning and Gary Tomlinson

The European project of the “human sciences” – broadly speaking, of an anthropology or critique of human sociality – took off in the eighteenth century and, from there, saw a continuous unfolding through the next two hundred years. From the first, this project was attached to a musical thinking that is evident in such foundational voices as Vico and Rousseau. But the role of music was not a static one. Instead we can trace the shift from an eighteenth-century view of music as a universal human activity to a nineteenth-century privileging of the European musical achievement (Hanslick, Wagner, Nietzsche), and then, in the twentieth century, to a struggle between Eurocentrism and the reassertion of the postcolonial, global view, in figures from Adorno and Suzanne Langer to Edward Said and Paul Gilroy. Throughout this history, the shifting roles of music posed a challenge to disciplines and modes of thought reliant first and foremost on language. This course examines the dilemmas of music’s position in the human sciences, at once foundational and marginal, and aim to point the way forward to a truly musical human science of the twenty-first century.  HU RP

* MUSI 478a / FILM 420a, Radio  Brian Kane

* MUSI 479a / WGSS 479a, Feminisms in Popular Music  Marissa Moore

The term feminist was once considered a dirty word, however more and more current popular music artists are claiming the title as a badge of honor. But how did the “F-word” transition from activist identity to popular label? And what do artists mean when they say they are—or aren’t—a feminist? In this course, we investigate how popular music artists have interacted with theories of feminism. Each week, we juxtapose feminist theory with writings on popular music, so that students can engage with the range of positionalities that feminism encompasses. Through this intersectional approach students gain a nuanced understanding of a variety of feminisms, in order to explore how artists bring the political aspects of their personal experience into their music, performances, and media appearances.
