EMPLOYMENT

The Student Employment Office, 246 Church Street (https://yalestudentjobs.org), assists self-supporting students in obtaining part-time employment within the university. Many work-study jobs are assigned by the School of Art, at the beginning of the term, for employment within the graduate art areas of study, and many students in the school obtain off-campus freelance or weekly part-time jobs. The contact for student jobs is the Office of Student Accounts. Course assistant positions are most often assigned to second-year students.
