

STUDENT PROFILE

Student Profile is used for student advising. Departmental registrars and faculty advisors who are assigned to a student are able to refer to a student's page for reference. This page displays a student's biographical information, curricula, GPA, credit hours, grade history, registered courses, and holds. The page also includes links to advising resources such as Degree Audit, request for TI and/or ABX, and Dean's Extension. Instructions are available to help you navigate the Student Profile.

For questions regarding Student Profile, contact registrar@yale.edu.
