

FAMILY NURSE PRACTITIONER

The Family Nurse Practitioner (FNP) specialty emphasizes the primary care of newborns, infants, children, adolescents, adults, pregnant and postpartum individuals, and older adults within the context of family-centered care. The FNP curriculum is intended to prepare students to apply for Family Nurse Practitioner Certification through the American Nurses Credentialing Center or the American Association of Nurse Practitioners.

FNP courses are only open to students enrolled in the specialty. Students from other specialties who are interested in taking an FNP specialty course must consult with the specialty director. A Post-Master's Family Nurse Practitioner Certificate option is also available (see the chapter Post-Master's Certificates).

YEAR ONE

Fall Term

NURS 6000	Advanced Health Assessment	3
NURS 6010	Advanced Pathophysiology	3
NURS 6020	Advanced Pharmacology	2
NURS 7020	Primary Care I A	1
