

ARCHITECTURE

Director of undergraduate studies: Michael Schlabs (michael.schlabs@yale.edu), RDH, 180 York St.; architecture.yale.edu

Architecture is a humanistic endeavor. The purpose of the undergraduate major is to include the study of architecture within a comprehensive liberal arts education, drawing from the broader academic and professional environment of the Yale School of Architecture. The curriculum includes work in design; in history, theory, and criticism of architecture; and in urbanism, and leads to a bachelor of arts degree with a major in Architecture. As a liberal arts major in Yale College, it is not an accredited professional degree program. For accredited professional degree programs, refer to the requirements of the National Architectural Accrediting Board (NAAB).

INTRODUCTORY COURSES FOR NONMAJORS AND MAJORS

Introductory courses are ARCH 1001, 2000, and 2600. They are open to all Yale College students and are required for those interested in the Architecture major prior to submitting a Declaration of Intent to Major. Interested students may also consider courses such as ARCH 1300, 1600, 2001, 2003, 2103, or 2601.

PREREQUISITES

Three courses are prerequisite for all concentrations: ARCH 1001; 2000; and *one* of the following: ARCH 2103, 2600, or 2601.

REQUIREMENTS OF THE MAJOR

Students majoring in Architecture are required to take fifteen course credits, including prerequisites and the senior requirement. Majors are expected to take the three prerequisites by the end of their sophomore year and to complete a core of four courses, for five course credits, by the end of their junior year. They must also base their studies in one of two areas of concentration: the Design concentration or the History, Theory, Criticism of Architecture, and Urbanism concentration. Majors are also required to complete three orientation sessions: advanced technology orientation, library orientation, and shop orientation. Within the concentrations, electives are categorized under four broad subject areas: history and theory of architecture and the city; urbanism and landscape; materials and design; and structures and computation.

Design concentration The Design concentration explores the role of architecture in shaping the world around us. It introduces complex processes involved in solving spatial and programmatic problems. Creative work is grounded in the study of history and culture, and in the analysis of social conditions influencing architecture. Design studios provide a forum for production and discourse. Studio projects address issues of architectural form, space, composition, site, tectonics, and programs within broader humanistic ideals.

For the Design concentration, the following additional courses are required:

1. A core of four courses: the studio courses ARCH 3000 and 3001 taken during the junior year after the student is accepted into the major; and the history of architecture surveys, ARCH 2001 and 2003, to be completed by the end of the junior year

2. One elective in history and theory of architecture and the city as outlined in the elective options below
3. One elective in urbanism and landscape as outlined in the elective options below
4. One elective in materials and design as outlined in the elective options below
5. One elective in structures and computation as outlined in the elective options below
6. The senior requirement, ARCH 4000 and 4001

History, Theory, Criticism of Architecture, and Urbanism concentration The History, Theory, Criticism of Architecture, and Urbanism concentration is intended to establish a broad historical and intellectual framework for the study of architecture and the city. An interdisciplinary approach is encouraged through additional courses taken in various fields of humanities and social sciences. Such courses may include archaeology, urban studies, aesthetics, philosophy, or visual culture. Permission of the director of undergraduate studies (DUS) is required if the courses fall outside the specified course of studies. During their senior year students complete a senior essay or project on a topic approved by the faculty.

For the History, Theory, Criticism of Architecture, and Urbanism concentration, the following additional courses are required:

1. A core of four courses: ARCH 3000 taken during the fall term of junior year; a second design studio or urban laboratory (e.g. ARCH 3301, ARCH 3305) or an elective approved by the DUS, taken during the spring term of junior year; and the history of architecture surveys ARCH 2001 and 2003 to be completed by the end of junior year
2. Four electives in history and theory of architecture and the city, as outlined in the elective options below and approved by the DUS
3. One elective in urbanism and landscape, materials and design, or structures and computation, or other relevant course approved by the DUS as outlined in the elective options below
4. The senior requirement, ARCH 4900 and 4910

ELECTIVE OPTIONS IN SUBJECT AREAS

See Links to the attributes indicating courses approved for Architecture major requirements.

History and theory of architecture and the city Electives can be chosen from ARCH 0002, 2101, 3102, ARCH 3103, 3108, 3115, 3601, 3106, 3400, 3602, 3109, 2103, 3110, or other relevant courses in History of Art and other, related fields approved by the DUS. Examples of approved courses include: HSAR 1143, 1160, 3221, and 4432.

Urbanism and landscape Electives can be chosen from ARCH 1600, 3102, ARCH 3103, 3601, 2601 or other relevant courses in American Studies; Ethics, Politics, and Economics; Environmental Studies; or Political Science approved by the DUS. Examples include: AFAM 1946, 1964, 2961, and 3326; AFST 2238, and 3366; AMST 0031, 2258, 3310; ER&M 2000, 1678, 3393; EVST 2219, 3255; SOCY 2001, 2103, 3715.

Materials and design Electives can be chosen from ARCH 1300, 1301, 3400; ART courses in drawing, painting, sculpture, or graphic design; or any other relevant course approved by the DUS.

Structures and computation Electives can be chosen from ARCH 1400, an approved calculus course such as MATH 1120, 1150, 1200, or physics course such as PHYS 1800, 2000 or other relevant course approved by the DUS. One example of an approved course is MENG 2311. (Elementary calculus is strongly recommended as preparation for graduate studies in architecture.)

REQUIRED ORIENTATIONS

Advanced Technology orientation All Architecture students are required to complete orientation sessions in the advanced technology workshop and materials laboratory. Students enrolled in ARCH 2000 must complete these sessions at the beginning of the spring term of the sophomore year. Access to digital media equipment is not allowed until the required orientation sessions have been completed. Questions should be addressed to the DUS or the director of advanced technology, Vincent Guerrero (vincent.guerrero@yale.edu), 432-7552.

Library orientation The Architecture program requires all students to complete a ninety-minute introductory library research session. Students enrolled in ARCH 2000 must take this session at the beginning of the spring term of their sophomore year. Failure to complete the required orientation precludes completion of the major. Students may not offer substitutions for this orientation. Orientation sessions may be coordinated by the Arts Librarian for Research Services, Tess Colwell, 432-2641. Questions should be addressed to the DUS.

Shop orientation The Architecture program requires all majors to complete several woodshop and materials lab orientation sessions. Students who plan to enroll in ARCH 3000 must take these sessions at the beginning of the fall term in the junior year, before the first day of classes. Access to the woodshop and materials lab is not allowed until the required orientation sessions have been completed. Questions should be addressed to the DUS or to the shop coordinator, Timothy Newton (timothy.newton@yale.edu), 432-7234.

Credit/D/Fail No course taken Credit/D/Fail may be applied toward the requirements of the major.

Outside credit Courses taken at another institution or during an approved summer or term-time study abroad program may count toward the major requirements with DUS approval.

SENIOR REQUIREMENT

Seniors in the Design concentration take ARCH 4000 in the fall term and 4001 in the spring term. Seniors in the History, Theory, Criticism of Architecture, and Urbanism concentration take ARCH 4900 in the fall term and 4910 in the spring term. Proposals for senior projects and essays are submitted in the fall term for review and approval by the senior project coordinator; they are then distributed to faculty members for review. Upon successful review, students may ask faculty members to act as senior advisers. Senior essays and projects for ARCH 4910 are due in the office of the DUS by early April. Design projects for ARCH 4001 are due as specified by the course instructor. All

seniors must submit a portfolio of their work to the office of the DUS by the end of spring semester. For all architecture majors, this portfolio must be representative of the student's design work including prerequisites and the senior project. History, Theory, Criticism of Architecture, and Urbanism majors must also include a copy of the senior essay and other appropriate texts.

ADVISING AND DECLARATION OF INTENT TO MAJOR

Yale College students interested in the Architecture major must submit a Declaration of Intent to Major during the spring term of their sophomore year, after taking ARCH 1001, 2000, and one of the following: ARCH 2103, 2600, or 2601. The Declaration of Intent to Major form, available on Yale Hub, must be submitted to the office of the DUS (contact DUS for deadlines) and must include the following information: name, address, telephone number, courses related to architecture already taken, and a statement of purpose. Students should also indicate their desired concentration at this time. Additionally, students are required to submit a writing sample in the form of a paper from ARCH 2600 (or other course approved by the DUS), and are encouraged to submit an electronic portfolio representative of coursework for ARCH 1001 and 2000. Upon the successful completion of these requirements, students are notified in writing regarding their acceptance to the major. Refer to the department website for important deadlines.

Courses in the School of Architecture Unless otherwise indicated in the course descriptions, all courses in the School of Architecture are open to majors and nonmajors with permission of the instructor and the graduate registrar. They are not available for the Credit/D/Fail option. Students are admitted on the basis of their previous coursework and previous performance.

SUMMARY OF MAJOR REQUIREMENTS

Prerequisites ARCH 1001, 2000, and *one of the following*: ARCH 2103, 2600, or 2601

Number of courses 15 course credits (incl prereqs and senior req)

Specific courses required *Design concentration*—ARCH 3000, 3001, 2001, 2003; *History, Theory, Criticism of Architecture and Urbanism concentration*—ARCH 3000; ARCH 3301, 3305, or an elective course approved by DUS; ARCH 2001; and ARCH 2003

Distribution of courses *Design concentration*—1 elective in history and theory of arch and the city, 1 in urbanism and landscape, 1 in materials and design, 1 in structures and computation, all approved by DUS; *History, Theory, Criticism of Architecture, and Urbanism concentration*—4 electives in history and theory of arch and city; 1 elective in urbanism and landscape, or materials and design, or structures and computation, or other relevant course; all approved by DUS

Other requirements Orientation sessions in advanced technology, library, and shop

Senior requirement *Both concentrations*—portfolio representative of design work, including prereqs and senior req; *Design concentration*—ARCH 4000 and ARCH 4001; *History, Theory, and Criticism of Architecture and Urbanism concentration*—ARCH 4900 and 4910
